

M. Fani Bozkurt
Hacettepe University, Turkey

Assoc. Prof. M. Fani Bozkurt, M.D., FEBNM

NUCLEAR MEDICINE

After completing high school education at Denizli Anadolu Lisesi in 1991, Dr Bozkurt completed his medical training at Hacettepe University Medical School in 1997. He had his residency training at Department of Nuclear Medicine, Hacettepe University Faculty of Medicine between the years 1997 and 2003. He began to work as an instructor at Department of Nuclear Medicine, Hacettepe University Faculty of Medicine in 2005.

Dr Bozkurt underwent a research fellowship program on oncological PET imaging at University of Pennsylvania PET Center in Philadelphia, USA in 2003.

Dr Bozkurt was rewarded by Turkish Cancer Research Council in 2003 for the second best original research on oncology and for the third best oral presentation at IX. National Gynecologic Oncology Congress in the year 2004. He was invited for the first Young Investigator's Meeting in the field of nuclear medicine therapy by European Association of Nuclear Medicine at Vienna in 2009.

Dr Bozkurt underwent a visiting scientist program on Cardiac PET imaging at Nuclear Cardiology Department at Harvard University Brigham and Women's Hospital in 2009.

Dr Bozkurt had his associate professorship degree in 2010. He was also certified by European Board of Nuclear Medicine in the same year. His areas of main interest are especially nuclear oncology, nuclear cardiology and intraoperative gamma probe applications in nuclear medicine.
